Sharon Niemann, CRNA—KANA

Heidi Lee, CRNA—MoANA

Bernadette Henrichs, PhD, CRNA, CCRN—MoANA

**SUPPORT YOUR STATE PAC!!**

MoANA will host a PAC event March, 31st immediately following the General Session.

KANA will hold a separate PAC fundraiser.

**Program Objectives**

KANA and MoANA are dedicated to the presentation of educational programs for CRNAs and anesthesia students to provide updates and review for anesthesia practice.

At the conclusion of this meeting, the participant should be able to:

1. Explain how IV Acetaminophen can be beneficial in addressing pain control in a variety of patients having surgery.
2. Differentiate between delirium and postoperative cognitive dysfunction and describe anesthetic implications for both diseases.
3. Describe how the anesthesia provider can prevent decreased cognitive performance of the elderly patient having surgery.
4. List the evidence and science on why changes in recertification are necessary for the practicing certified registered nurse anesthetist.
5. Describe current political and professional events that may have an impact on the profession of nurse anesthesia.
6. Describe the properties of administering IV Acetaminophen in the preoperative setting.
7. Evaluate the evidence to determine best practice for perioperative beta blockade protocols.
8. Compare traditional anesthesia to anesthesia in an austere environment and explain anesthetic implications for types of surgeries associated with wounded soldiers.
9. Gain increased knowledge on the pharmacokinetics and pharmacodynamics of alternative drug therapies and demonstrate how to implement their uses in the anesthetic setting.
10. Describe the surgical and anesthetic implications of herbal drugs.
11. Discuss potential pros and cons of current and future health-care regulations and how they impact nurse anesthesia providers.

*This program has been submitted to AANA for 10 hours of continuing education credit.*

**Westin Crown Center**  
**One East Pershing Rd.**
